NEW YORK, July 13.—Ex-Governor Foster, of Ohio, who is spending a few days in this city, is confident that the Republicans will carry Ohio this fall.

"Why are you so sanguine on this score. Governor?" asked your correspond-

"Because it is in the air, my boy," responded the gentleman from Fostoria. 'Ohio' is a republican State, and we all expect Foraker and Pendleton's successor will be a large vote, but not as big as it will not be perceptibly increased this year. Rev. Dr. Leonard, the Prohibition

"Of course we want all the help we can get, but I do not think the loss of even Ran, and he will not return to the Capital the prohibition vote will injure our prospects to any great extent. This year we are united and our organization is perfect."
"While the prohibition question will be

a factor among the issues it will not be the leading one as heretofore. Governor think is sincere in his desire to reterm, but I think he will be induced to accept a renomination. I can't see, though, how he can be elected. He cannot expect assistance from the Republican side, for there are no Mugwumps in Ohio, and it is certain that he will not get the liquor dealers yote enlire, for there has been a big split in their ranks."

What do you think of President Cleveland's administration?"

Candid temperance Republican, you have the truth in a nutshell. The Democratic Esquirer is very conservative on the prohibition movement for the reason that it desires to encourage if, and at last lets the secret out in its editorial columns by declaring that the Leonard ticket will make a "heavy breach in the Republican line." A waylaring man, though a fool, could not err in stamping the present prohibition activity in Ohio as a helper to the Democraty. If certain Ohio Republicans are as disgusted as they were when Hoadly was discontinuous and they will not change. The East will not be able to control the nomination against the support he will have. that she sunk and that the ten passengers, ex-Mayor Raind and party, who embarked on their perilous journey in such happy spirits, had perished. Later a boatman named Jas. Garroll, who had miraculously succeeded in weathering the tornado in a yaw), appeared on the Waywatta Bay beach dragging his miniature craft after him. When he had recovered sufficiently from his fright and exhaustion to speak coherently, he told of having passed the Minnie Cook just before the storm struck the bsy. He thought the party had observed the danger, and was quite certain that Engineer AcDonald had turned the yacht from her course into the bay. The yacht from her course into the bay. Moreover, Ferran's use of bacilla has not stopped or appreciably checked the cholera. In the little town of Masadasa, near Valencia, where over 2,000 out of 2,500 inhabitants twelve days ago were inoculated, there are fewer deaths. Here in Valencia the last few days the cemetery is so crowded that dead bodies in many cases are left unburied in houses during two or three days despite the danger of infection and intense heat. The relations of the dead are meanwhile Jorbidden to leave their homes. Unless these abominations are immediately remedied, the plague may soon rage as fiercely as ever. In any case a typhoid epidemic is likely to follow cholera.
